

# Logging Into Zoom

## Using Zoom on an iPad or other tablet:

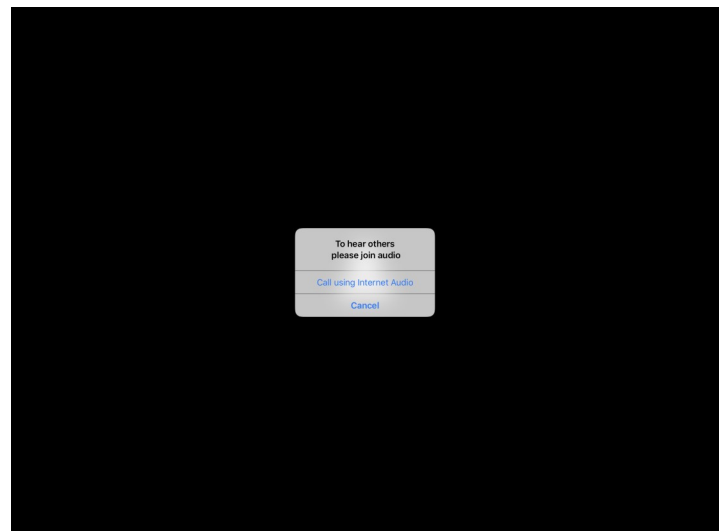

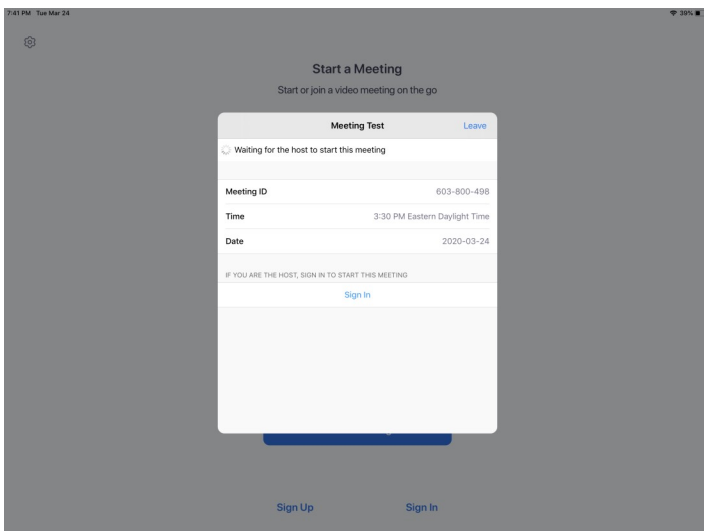

If your child is using an iPad or tablet, download the Zoom app from the App Store or Google Play.

To join a meeting, open the Zoom app and click **Join a Meeting**. Enter the Meeting ID (the numbers at the end of the URL in your teacher's email) and the student's **first name only** as the Screen Name.

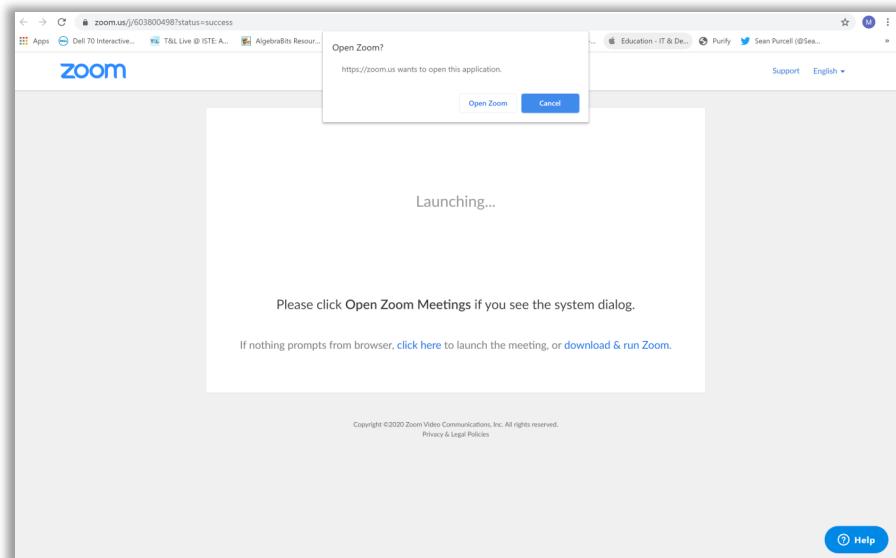

Once the host starts the meeting, you may be prompted to allow the device to access the microphone and/or camera. Select **Call using Internet Audio** when prompted.

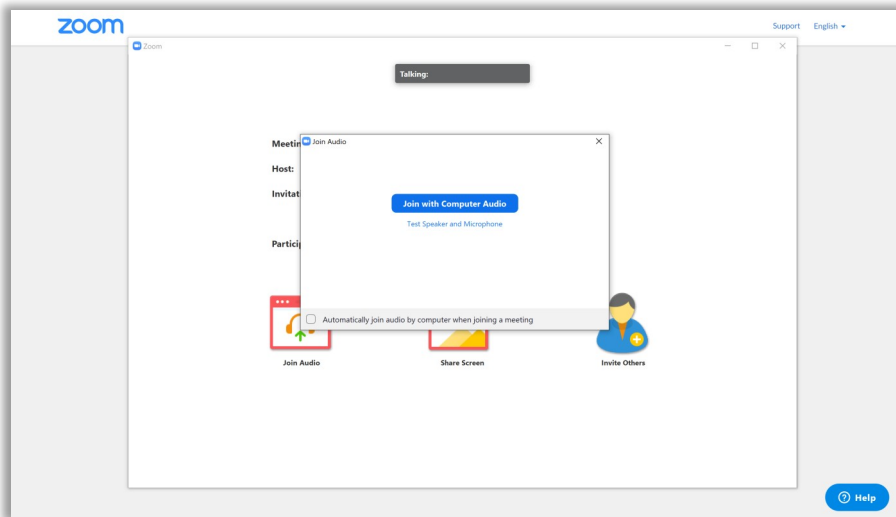

## Using Zoom on a computer:

To access Zoom on a computer, click the URL in your teacher's email or type the URL into the address bar of a browser. Click **Open Zoom** on the pop-up message or **download and run Zoom**.

After testing the speaker and microphone on your device, click **Join with Computer Audio**.

Type in the student's **first name only** when prompted and **Join Meeting**.
